## Tools:

Beadalon® chain-nose pliers (2)  
Beadalon® round-nose pliers  
Beadalon® crimping pliers  
Beadalon® wire nippers  
Bead Bugs (6)

**Tip:** Using the Bead Bugs allows you to keep the beads in place while working multiple strands of beads.

**Time to create:** 2-3 hours

**Instructions:**

1. Cut the beading wire into 3 22-inch pieces.
2. Place all three pieces of beading wire into a Bead Bug.
3. String the central part of the necklace holding all three strands of beads as one so that they're at the center of the flexible beading wire strands. String a gold rondelle spacer after each of the beads listed here.
  - a. String 1 medium wooden round, 1 red dyed quartzite round, and one wooden rondelle.
  - b. String one large ceramic round and a wooden rondelle. Repeat four more times.
  - c. String 1 red dyed quartzite round, and 1 medium wooden round. Place a Bead Bug at the end of the strands to hold these beads in place as you work the sides of the necklace.
4. Separate the wires that emerge from the medium wooden round.
5. String 2" of cream E beads, a small wooden round, and 2" of cream E beads. Place a Bead Bug on the strand.
6. On the second wire, string 2" of green jasper stone chips, pass through the small wooden round you strund in step 5, and 2" of jasper stone chips. Place a Bead Bug on the strand.
7. On the third wire, string 3 6mm orange jade rounds, a gold spacer, string 3 6mm orange jade rounds, a gold spacer, string 3 6mm orange jade rounds, and the small wooden round from step 5. Repeat, placing a Bead Bug on the strand.
8. Holding all three flexible beading wires as one, string 3 small wooden rounds, 1 gold spacer, 1 gold round and a #3 crimp tube.
9. Pass the wires through a jump ring and back through the crimp tube. Ensure that you have the wire in place so that you can repeat these steps on the other side of the necklace. Crimp the tube and trim excess wire.

10. Repeat steps 4-9 on the other side of the necklace.
11. Slide 1 orange swirl lentil onto the ball pin.
12. Make a wrapped loop, connecting the loop to the extender chain before wrapping the loop.
13. Use the jump rings that are on the extender chain to attach the clasp to one side of the necklace and the extender chain to the other side of the necklace. Trim the extender chain to the length of your choice.
